SST employee earns prestigious certification.

David A. Smith, PSP, PSNA; of Security Services & Technologies (SST Metro DC Area), has become the nation's first, online certified **PSNA – Physical Security Networking Associate**. This prestigious certification is the GOLD standard for IP Networking in the Security Industry and is currently the only designation of its kind.

“The class was great and the courses covered everything from basic networking to API's, XML integration, Operating Systems, Storage Options to TCO/ROI and how to design a converged IT/Physical Security System. The group at www.SecurityCEU.com has outstanding customer support and offers many other courses for continuing education in the Security and Emerging Technologies arena” Dave says.

Protecting assets of over 1 Billion dollars, this certification further solidifies the investment that SST has taken to become the Premier provider and designer of IP Security Systems to meet their clients' mission critical security needs by providing the latest, open architecture, scalable and proven technology solutions.

SST, a division of FirstService Security is one of North America's premier system integrators providing innovative products and services for a wide range of markets including, Commercial/Office Tower, Petrochemical, Financial, Educational, Telecommunications, Utilities and Healthcare. Our services encompass a full spectrum of security offerings including IP based access control, intrusion, digital video surveillance, monitoring, perimeter/fence protection, vehicle gate access, thermal imaging, intelligent video and maritime security applications. For more information about SST call 888-446-7781 or visit www.1SST.com.

About www.SecurityCEU.com: Created and hosted by The CMOOR Group, a custom eLearning development firm specializing in security education solutions, SecurityCEU.com is home to over 125 online continuing education courses ranging from NICET VSS Level 1 (CCTV), Physical Security Network Associate (IP-Networking) and many more. Courses are approved for CEUs by over 8 national agencies including NTS, NICET, BICSI, ALOA, NSCA, ASIS, CSI and more.
